THE VEGETABLE, PULMONARY BALSAM
Is the Most Highly Approved and Popular Standard Medicine now in General Use for
COUGHS, COLDS AND CONSUMPTIONS, *Asthma, Pleurisy, Phthisic, Spitting of Blood, Hooping Cough, Bronchitis*, and all Pulmonary Affections and Diseases of the Lungs and Chest.

It is thus spoken of by eminent physicians. One says—"For the last two years complaints it is superior to any other preparation used." Another—"It has been used with the most astonishing success, and has a universal character as a pectoral medicine." Another—"I can with confidence recommend it." Another—"It has been used with wonderful success, and has satisfied me that it is a valuable medicine." Another—"It is a *safe*, convenient, and very good medicine." Another—"I have seen cases of asthma, &c., in which it disappointed the reasonable expectations of those who have used it." Another—"It is equal if not superior to any other medicine within my knowledge."

Extract from a letter dated Dunlap, Ill., April 13, 1849:—"It was first introduced into my family by a celebrated Physician, some ten years ago, and such was the benefit my wife derived from it that we have not been without it in our house since. I have also recommended it to at least fifty different persons since, for Affections of the Lungs, and I do not know of a *single* case in which it did not give *immediate* relief, and some were cured after being given up by their Physicians."

BEWARE OF COUNTERFEITS AND IMITATIONS, such as CARTER'S COMPOUND PULMONARY BALSAM, AMERICAN PULMONARY BALSAM, and others, in part, bearing the name of "VEGETABLE PULMONARY BALSAM," and see that it has the written signature of WILSON'S CUTLER upon a yellow label, on the bottle wrapper. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared by REED & CUTLER, importers and Wholesale Dealers in Medicines, Paints, Chemicals, and Dye Stuffs, 33 Ann Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally. For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents.

RECOMMENDATION.
[Certificate of Dr. FERRY, Portsmouth, N. H.]
PORTSMOUTH, Sept. 29, 1849
Mr. J. P. MOSES, Agent for "White's Hair Restorative"!!
Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative. Several years ago, after a severe fit of sickness, my wife cut off her hair, the scalp appeared dry and sore, and the hair grew out brash, and unwell. About a year ago, by another fit of sickness, she lost all her hair a second time, and for a long time there was apparently no action in the scalp. After various applications I was induced to try the above mentioned Restorative, and now after the use of a few bottles her hair has grown out a thick, luxurious head of as beautiful a color as ever. Furthermore, for a long time I have been afflicted with neuralgia and other pains in my head, and I have found it the best external remedy I have ever tried. I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen.
Most respectfully yours, &c.

THE BEST STOVE NOW IN USE.

THE BAY STATE
COOKING STOVE,
Is unsurpassed by any other Stove now in the Market, being fitted for wood or coal, and is offered to the public, as defying all competition!

THIS STOVE was patented in 1848, for wood, and in 1849 for coal, and has been pronounced by competent judges, the most beautiful and perfect in its appearance, and the best Cook Stove in the market. The castings are heavy, smooth and beautiful; the joints are fitted with great perfection; the ovens are very large, and very nearly square and will take in four mid-plate pie plates. The stove is so arranged that the wood lays and burns upon the ashes, instead of a grate, by which means the fire can be preserved for a long time; and as the oven projects under the fire-chamber, the fire and hot ashes produce a beautiful heat over the front of the oven, and causes the whole oven to heat equally. It has a beautiful appearance for roasting and broiling, by which means all the smoke is taken off in the stove.

The Cook Stove has a cylindroidal, or oval cylinder, lined with soap-stone, or fire brick, and confesses to be the best form of fire chamber in which to burn coal.

Sold only by the subscriber, in the superiority of the above Stoves over all others in the market that he will offer a fair trial of thirty days, refund the money and all expenses, if it does not meet the expectations of the purchaser.

The largest and best selected, and most desirable Stock of Air Tight, Cooking, Office, and Parlor Stoves, in this market at Wholesale and Retail. Also, Cooking Ranges, and Hot Air Furnaces, at prices to suit the times.

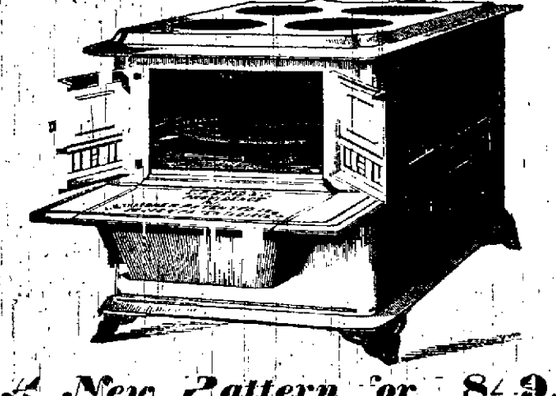

On hand as usual, a large assortment of LEAD, PIPE, CASTINGS, COPPER and TIN WARE and all other articles usually found in establishments of the kind.

N. B. COPPER, SHEET IRON and TIN WARE manufactured, as above, and by the best of workmen.

Orders gratefully received and promptly Executed.

M. TEAGUE'S
Hot Blast Air Tight
COOKING STOVE,
The Greatest Invention of the Age.

A New Pattern for 1849.

AMONG a host of competitors, THIS STOVE, for its superior advantages, took the first premium at the American Institute, city of New York; at the Hartford County Fair Connecticut; at the Worcester Co. Fair, Massachusetts; and Franklin Institute Philadelphia.

One very important improvement in this Stove is the patent *Broiling Chamber*, see cut) by which broiling is done to perfection in from four to six minutes, retaining the juices, and giving steaks the same fine flavor and pleasant twang of the best charcoal broil, (if being equally well adapted to toasting, roasting or frying) with the draft to the fire-arch passing through the broiling chamber and effectually carrying off the steam which usually arises from Broiling. The broiling department is always ready, it being protected by the same fire required for other purposes, and not interfering with any other part of the cooking.

The flue being the entire width, and passing directly around the oven, applies the heat to all parts alike. The oven for Baking is not equalled by any Stove in use. *Warranted as above for thirty days.*

JOSEPH P. WOODBURY'S
Patent Planing Machine.
THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This machine will plane 6,000 feet of boards to any uniform thickness, in one hour producing a better finished surface than it is possible to plane by any other means now known, not excepting the hand plane, and is peculiarly adapted to plane and joint clapboards, or weather boarding, and will do the work faster and better than any machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material, and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder, now in common use. The construction and organization of this machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing the subscriber (post paid,) Boston, Mass.

PATENTS.

AGENCY FOR BUSINESS
With U. S. Patent Office,
WASHINGTON.
NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier*; he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them; *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen years* practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

Holden's Alterative and
TONIC MIXTURE.
IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick headache and many nervous disturbances growing out of imperfect digestion are generally cured: persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

House Testimony.
We, the undersigned, have ourselves, or in our families, used Holden's Alterative and Tonic Mixture, and are satisfied it is a very valuable preparation for the cases for which it is recommended.

Wilder's Salamander Safes.
☞ The following Letter from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safe over all others.
BANGOR, Oct. 24, 1849.
John E. Wilder, Esq.—
Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours: the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.
Respectfully yours,
JAS. EDDY.

LATEST AND BEST
.....IMPROVED.....
Patent Bedstead.
THE Subscribers have purchased the right of manufacturing and vending HIS KLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor.

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads, which shall be elastic and have all the advantages of a Slat, or Sacking Bedstead, while at the same time, it serves to secure the posts and rails compactly together, without other aid. It can be fitted to any Bedstead, *old or new*, with much less time and labor than is required to put in a cord, and when fitted, gives *great* strength and support, and keeps the Bedstead in proper shape. It cannot be doubted that this simple improvement will, when known, take the place of every other method now in use. We can confidently recommend the above improvement to our customers and to the public as the cheapest, most substantial and best Patent Bedstead ever invented.

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL.

Further proceedings of the Police Court.

On Friday afternoon Judge Pratt examined Benjamin H. Wade a complaint having been made against him on Daniel F Weston for entering his store on the 16th of September last and taking therefrom thirty five pocket knives and six wallets

Several witnesses testified that they purchased knives of Wade which were identified as those lost It was proved also that Wade caused to be made an iron bar found in the possession of Woodbine

Wade was ordered to give surety in the sum of $2000 for his appearance at the District Court on Tuesday next

Benj. H. Wade was examined on Saturday afternoon on the complaint of Nelson Jordan for entering his store and taking therefrom various articles of cloths

Alexander Greenlow the principal witness was taken into Court, but said he was too sick to answer any questions

Mr, Knowles, Wade's counsel, agreedt o receive all objections, and await the order of the court. He was ordered to give surety in the sum of $1000 for his appearance at the next term of the District Court.

☞ On Saturday evening Michael McQuin was examined for breaking into store of Nathaniel Sweet, on ht night of the 17th inst and stealing two bbls Pork

Also examined for breaking into store of Wm. James of Oldtown on the night of the 15th inst and stealing a whole kit of shoemaker's tools

He was ordered to give surety in the sum of $500 in the first case and $1000 in the second for his appearance at the District Court to be held on the first Tuesday of January

Capitol of Alabama Burnt.

The capitol at Montgomery was burnt on the 15th inst. The clerks of the two houses saved all their papers, m the archives of the State, those in the offices of the Governor, Secretary of State, Treasurer and Comptroller were also saved. Most of the furniture of the different libraries, were likewise preserved from the flames, so that the great loss is the building!

The citizens of Mobile being apprised of the destruction of the Capitol of the State in Montgomery, by fire, met on the 15th, and tendered the free use of the Barton Academy building, in Mobile, a spacious and elegant structure, for the remainder of the session The meeting authorized to fit up the building for the use of the Legislature, and individuals came forward and offered steamboat conveniences for transporting the members of the Legislature and the archives of the State to Mobile, free of all expense

THE ROMANCE OF NATURE or the Poetical Language of Flowers

This work, edited by Mrs E O Smith is one of the great beauty and its lavishness of mechanical and artistic richness is attributte to the merit of work as well as to the refinement and taste of the American public. Indeed there is a rage now for rich books, for giving Well. the American editor of this highly interesting work justifies this love of the beautiful—she may be right, but the direction seems to be towards extravagance—however people had quite as well, perhaps better, be extravagant in books, than in dinners and hot suppers At any rate those fond of a richly make book, with beautiful illustrations may be sure of finding such an one by calling at the bookstore of Wm Lewis and purchasing this for a New Year's present.

PHILO AN EVANGELIAD By the author of 'Margaret, a tale of the Real and Ideal'—Boston, Phillips, Sampson & Co 1850, pp 211

Every admirer, not to say reader of 'Margaret' will be on tiptoe to read this new work — We have just received it from Mr Bugbee and knowing that there will be a rush for it here we cannot wait to read it before we apprise our friends that the work is in the city and awaits their orders Mr Judd's prose work 'Margaret' quite struck many by surprise and certainly gave much satisfaction and foreshadowed a promise of much in the future We have now a work in poetry as well as poetical work from his pen and we anticipate from it no little pleasure

THE GIFT LEAVES OF AMERICAN POETRY Edited by Rufus W Griswold. J C. Riker New York

We have before us a large rich and finely illustrated volume with the above title. It contains some of the best poems of America's best poets—the most beautiful illustrations of the thought and fancy and feeling of the country—the finests poems as of the literary art. Such the character of its contents and its mechanical execution is correspondent to its interior essence It makes a beautiful and appropriate gift-book for all seasons and to all classes and will make one of the most agreeable of hand books for the drawing room or parlor

It is for sale at the Bookstore of Wm Lewis

Newspaper Reading.

One of the most remarkable features of this wonderful age, is the avidity with which newspapers are read. It has been remarked with much truth, by foreign travellers, that "the Americans are a reading people" They read history, biography, poetry and novels, the latter to an indefinite and alarming extent. In fact anything and everything, that has been stamped with printed characters, is seized upon and devoured without regard to its worth and importance No land, indeed, can boast such a number of readers, in proportion to its population, as his republic. Nor can any nation in the whole civilized world exhibit so great a number of well conducted newspapers as this country of ours

In the whole circle of literature, no productions are so generally patronized, and favorably received by all classes, as newspapers This fact is not in the least unaccountable In a country where the means of education are open and free to every class and condition in the community the press is the medium through which the minds of all can be reached, influenced and instructed In truth, a free press is the "guardian angel" of a free people, ever ready to detect and expose errors propagated by opponents and to watch with Argus eyes, the supposed enemies to freedom.

In politics, warfare, the press is the most powerful weapon, both for assault and defence. Every party has its organ through which its views are presented and its sentiments avowed —through which its creed is laid before the public in a tangible form Almost every religious denomination has its "watchman on the wall, in the shape of a journal devoted to its interests, whose contents are intended to exhibit the spirit and characteristics of the sect whose cause it espouses In fine, every trade and profession has its periodical *Mentor* to guide and direct its members in the road to honor, wealth and prosperity

Thus, all strive to keep pace with the progress of the age. But we have noticed the press only as assuming partizan and sectarian views and ideas There is a far more extensive and interesting view to be taken of it, as seen in the miscellaneous or general newspaper This is a journal which has a charm for all, and is welcomed by every class of readers

Its value, though highly appreciated, cannot easily be overrated. It has been remarked by a writer across the waters, that "the reading of for the short space of one quarter of a year, brings more sound instruction and leaves a deeper impression, than would be acquired, probably, at the best school, in twelve months." The place it holds in literature is important, and its influence over the community is powerful and far reaching For good or evil its voice is potential.

From the vast number and variety of subjects treated of and the vast amount of useful matter embodied in this fireside companion, the reader catches a glimpse of whatever is originated in the world of mind, or discovered in the world of matter, he gets a passing view of whatever human ingenuity has invented, or persevering research revived and brought to light.

The learning and genius of the ancient philosophers and sages, and the lays of the ancient muse, are consulted and digested by the industrious and never wearied editor, for the instruction and entertainment of his patrons

This is an age that brooks no delay Brevity and despatch are the watch words Everything in the shape of intelligence is "telegraphed" or "sent by express" Steam ships, now, cross the broad Atlantic in two weeks, occasionally in a briefer period, thus bringing the old world nearer than New York was fifteen or twenty years ago Improvements in steam navigation late discoveries in electro magnetism, and the invention of the telegraph, have added mostly to the importance and value of newspapers — Our widely extended country, with its numerous and rapidly increasing population, with its commercial, agricultural and manufacturing interests, all conspiring to render it wealthy, prosperous and happy, demands that her sons should sustain and patronize the press as the conservator of her liberties

In our newspapers we have a blessing *such* as no other people enjoys. Therefore let each avail himself of the blessing, and pay *well* him at whose expense, and by whose labor it is bestowed.

A good Custom for New Year's Day.

Many families with their connected branches, in this country and more in Europe, are accustomed on about New Year's day evening, to assemble together to distribute and receive gifts of love and friendship, which each individual from the oldest to the youngest has necessarily selected

They are enclosed in suitable envelopes, and marked with the name of the Donor, and the person to whom it is designed, and one of the company as selected takes them from the family tree, or table on which they are tastefully arranged, reads the names of the Donor and Recipient, and by this 'magic word,' or by one who officiates as page, are conveyed to their proper destination

The joy and surprise which is occasioned, and the kindly feelings which are awakened and strengthened make the occasion delightful—and more than compensate for the expense and trouble in preparing for it.

The books, vases, shawls, silver-ware, potfolios, engravings, games, and the various articles, large and small, for use or ornament, which each have contributed, if rearranged, as they often are subsequently, furnish a display which might vie with some of the establishments from which they were originally selected

Let there be many gatherings among us like this. It will strengthen the bonds of love and friendship, and make the years more bright and beautiful.

CALIFORNIA ITEMS.

The accounts from the mines are very meagre The miners on the principal rivers, when last heard from, are said in general to be doing well—many of them having gone into winter quarters. Fifty thousand people, allured by the fascinations of gold digging, were to spend the winter in the bleak and inhospitable mountains of the Sierra Nevada, depr ved of almost every comfort of home and of civilization — The waters of all the mountain streams were high, and the roads to the mines rendered difficult. The stage from Sacramento City to Mormon had been obliged to suspend its trips

On the Yuba river a population of 2000, it is said, were working industriously, and so successfully, as to average about two ounces of gold a day, each The digging ground of this stream, although only 40 miles in length, had held out well

On the South Fork of the American river, new and rich deposits had been found, which yielded some of the most beautiful gold which had been seen. But the rain had prevented particular explorations or digging to any extent.

We find very little said about the health at the mines. In general terms, it is stated, that cases of sickness were constantly occurring — The Placer Times says, "as near as we can get at it, miners are doing a fair business on most of the streams."

A letter from the Mariposa mines states, that gold may yet be had there by working hard for it It is said to be very healthy at these mines In the vicinity of Fremont's diggings, many were making from $10 to an ounce a day, while others were leaving, sad and disappointed.

Sacramento City had grown rapidly Where but six months before existed only the site of a city, may now be seen 800 houses A fleet of 80 square-rigged vessels lines the banks of the river at the town Among the buildings, were the City Hotel, a sedenious establishment, formerly the grist mill of Capt. Sutter, eight miles from its present location, a Drinking Saloon, called the Plains, the inner walls of which are said to be well decorated with sketches of picturesque places on the overland route across the Plains to California; and a Theatre, owned by Judge Hastings Gambling houses were very numerous, and business in that line extensive

The rainy season appears to have commenced a month earlier than last year, and to have had a depressing influence upon business. The rain began on the 2d and had continued, almost without intermission, up to the 15th, deluging the whole country On the night of the 6th, the California says, more than 12 inches of rain fell in hour!

A freshet on the American river, near Mormon Island, had damaged property to the amount of $50,000

The survey of Sacramento river, under Captain Ringgold of the Navy, had progressed as far as Sacramento City Portions of the chart, engraved in San Francisco, were about to be issued.

Benjamin Reed, a young man from Boothbay, Me, who went out in the Elvira from Boston, and who had been to the Yuba river, and returned to San Francisco sick, and after staying a few day on board the Elvira, jumped overboard and was drowned.

The last of four of a family named Rogers, who went from New York to California in December last, had died One died of a fever at Panama; the father and another son died in October, on the Yuba river, and on the 30th Oct. the remaining son died at Sacramento

There was continued and grevious complaints in California of the irregularity of the mails from the States.

A man who planted a garden near Sacramento City, had cleared $10,000 from it, after paying $3000 for a man to assist in the cultivation. As a general thing, however, no attention had been paid to agriculture, and little or nothing had been raised for the subsistence of the population

The Pacific News has the following paragraph

"We have had the pleasure of conversing with a very intelligent gentleman, who has just returned from a long tour of observation thro' the mining district. His investigations have led him to the conclusion that its greatest riches have not yet been reached, but still await the labors of miners more experienced and skillful than those engaged in the work- He saw personally several diggings richer far than those in relation to which our credulity has already been so severely taxed At the same time he places the average gain of the whole body of miners now employed, at a considerable lower figure than is usually given. He thinks that mining, having been, as heretofore conducted, a game of chance and uncertain as a lottery or a faro bank, is now about to become a less hazardous game of skill and scientific calculation, at which good and experienced players, and they only, will be sure largely to win The observation of our informant fully confirms the general impression that there is to be a serious deficiency in the winter stock of provisions in the mining region, without allowing anything for the consumption of the overland emigration now on its way thither"

The Pacific News of 15th says

"We saw a mail yesterday from the Middle Fork, who has been at work but six weeks, and in that time has turned out, with his own hands, six thousand five hundred dollars, He had one lump weighing twenty-seven and a half ounces."

Congress.

WASHINGTON, Dec 27.

In the House, the resolution of Mr Boyd of Kentucky, to adopt the rules of the last session, as ended so as to except the 11th rule, and to appoint a committee of five on rules and orders, coming up, Mr Boyd demanded the previous question. An animated debate followed Mr Schenck of Ohio moved an amendment, that, as usual, the committee shall never report Mr Vinton and other members suggested several desirable amendments to the rules

Mr Stephens of Georgia said the House might compel committees to report Mr Ashman objected to the accepting of the 11th rule which would bring the plurality vote to bear upon the election of other officers of the House besides the Speaker Mr Boyd said he was opposed to a plurality rule, and would strike out exceptions

Mr Schenck objected to the appliance of the previous question, as a protestation of the minority—which all parties needed, as there was no majority The previous question was then rejected by tellers 92 to 72.

In the Senate, the first resolution was with a view of the establishment of the states of California, Desert, and New Mexico — Mr Houston of Texas offered a resolution calling for correspondence respecting Santa Fe and Texas

Mr Felch of Michigan presented a resolution in favor of a ship canal around the Falls of Niagara.

Mr Bradbury of Maine gave notice of his intention to introduce a bill to establish a Board to settle claims against the government.

The Vice President presented communications from the War, Treasury, and Navy Departments.

Mr Yulee of Florida gave notice of his intention to introduce a bill to indemnify Florida for expenses incurred in relation to the Semnoles

Mr Clemens of Alabama, gave notice of his intention to propose an amendment to the constitution, requiring the Senate to be elected by the people All the above propositions were laid over or referred

After a short Executive session, the Senate adjourned to Monday

In the House, the resolution upon orders was so modified as to adopt the last year's rules until January 15, and a committee of nine upon the rules was appointed

The President's Message was referred to the committee of the whole

Mr Sackett, of N. Y, proposed that the committees of the House be chosen by ballot. This produced a warm discussion between Mr Winthrop and Mr Giddings, respecting the course of the former gentleman Mr. Winthrop charged Mr Giddings with making false statements against him. Messrs Shenck Holmes, and Giddings made long speeches Mr Sackets resolution was lost, and a resolution by Mr Burt, of S C, that the Speaker appoint the committees was adopted Adj to Monday.

Reception of the British Minister.

The British Minister, Sir Henry Bulwer, was presented to the President by the Secretary of State on the 24th inst. The Minister accompanied the delivery of his letter of credence with a few remarks, which are thus reported in the Republic

SIR: I need not say that it gives me the sincerest gratification to be the bearer of the credentials which I have just had the honor of placing in your hands

Permit me to say, that in coming to your country, I do not feel that I come as a foreigner to a foreign land our nations speak the same language, spring from the same race, and seem especially entrusted by Providence with the same glorious task of illustrating the Anglo-Saxon name, by extending the best interests of civilization through two great divisions of the world

I have the entire confidence, sir, that our two governments will act with the most perfect concord in carrying out this great design, and for my own part, I unfeignedly assure you that I could not have a duty more congenial to my feelings than that of cultivating the most intimate and friendly relations between the Queen, my Sovereign, and that great Republic of which you are the worthy and distinguished President.

To these observations the President replied in the following terms.

SIR: I am much pleased to receive from your hands the letter of her majesty, your Sovereign, which accredits you as the Envoy Extraordinary and Minister Plenipotentiary of Great Britain, near the Government of the United States, and I cordially we come you in that high character as a friend.

Beyond the identity of origin, language and duties, so appropriately alluded to by you, as connecting our respective countries, there is much, sir, in their present relations, calculated to impart unusual interest to your missions — That the best plans for extending the blessings of peace, commerce and civilization may be executed by our perfect concord, is my most earnest wish, and the confidence you have expressed, that the two nations will act in concert and harmony in all wise and well directed efforts for the accomplishment of such objects, is accepted by me in the cordial and sincere spirit in which it has been proposed by you

I hope, sir, that your residence in this country may prove as agreeable to you, personally, as you have given me good reason for believing that it will be honorable and advantageous both to Great Britain and America.

☞ It is evident from the action of the Senate on the appointment of committees, that the pro-slavery members will, in a great measure, control legislation of that body during the present session The Democratic party in the Senate is united and the Southern Democrats being in the majority they will govern the action of the party This is evident from the ostracism of Senator Benton who was excluded from the post which he usually occupied on certain committees solely on account of his sentiments on the slavery question The most important committees, and those to which all questions affecting the public institutions must be referred, are constituted with pro-slavery chairmen and with a majority of Southern men From such committees the North has but little to hope The Democrats are alone responsible for this organization, and upon them must rest the odiousness of preventing a free expression of Northern opinion.

Another Life Saved.

Read the following letter from a Clergyman of Camden Me, to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR,—A CURE.

BR. DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of A H DOWN'S ELIXIR,

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated by bleeding which created a dry hard cough My appetite failed my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry ... mended in the Banner, I procured a bottle and commenced taking it and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of physic necessary, and also constricting the very ... gans that should be relaxed I used other kinds of patent medicines but with no good effect seven weeks I continued gradually to sink under my disease at the expiration of which time, I was extremely weak my skin dry and husky, and my feet and hands cold ... of the time I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach My tongue was coated with a thick white fur, bowels very irregular and costive hectic fever at ... it was dry, hard cough, difficulty of breathing and low spirits My stomach in this time was so sore and weak that it was with difficult ... I could stand erect ... I commenced the use of N H DOWN'S ELIXIR — And to my great joy, and the great joy of my friends I found that the use of it a few days had regulated my bowels equalized the circulation and produced a healthy moisture upon the skin I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach gave me a good appetite, and greatly improved my strength I continued its use six weeks, using six bottles, at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in *colds* and in a case of *measles*, and it has proved ALL IT IS recommended to be

I therefore *cheerfully* recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, J L TOTTLE.

Camden August 1849

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness while other medicines increases that difficulty

2d It is perspirant It equalises the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves 'ALL IT IS RECOMMENDED TO BE'

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE G W LADD CURTIS & PERKINS A P GUILD, WM MANN G McFARLAND Bangor, L S Smith J W Curtis & Co, Hampden, Chas Johnson, J B Chick, Frankfort, H P Fifield Bucksport, J Hooper Jr S P Hatch & Co, Castine, B Nourse Geo Parcher Ellsworth, E P Butler & Co Orono J & R Fisk, H & J Y Richardson Oldtown, Wm O Poor, Belfast, Chas A Macomber R T Slocomb East Thomaston

Dr. Townsend's COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold It cures without vomiting, purging, sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known, it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success — It has performed within the last five years, more than 100 000 cures of severe cases of disease, at least 15 000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

Dr TOWNSEND—I verily believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood and my cough has left me You can well imagine that I am thankful for these results.

Your obedient servant,

WM RUSSELL, 65 Catharine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS.

FITS' FITS' FITS'

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost everything for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise ... which we feel grateful Yours respectfully,

JOHN BUTLER Jr.

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness — It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalising the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the human face divine, as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of nature—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow if she paint and use cosmetics, and the blood is thick cold, and impure, she is not beautiful If she be brown or yellow and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c, &c* and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females recommended theirs, although previously they did not A number of these Mixtures Pills, &c are injurious to females, as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores have taken only four bottles it took them away for which I feel myself under great obligation Yours respectfully

ISAAC W CRAIN 106 Wooster st

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from Physicians in different parts of the Union

This is to certify that we, the undersigned Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixers, Bitters, Extracts of Yellow Dock, &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided

McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Sprains, Stiff Neck, Chilblains or Chapped hands, Sore Inflamed Breast, Weakness or Pains in the Stomach Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of 'All-Healing Ointments' and 'Panaceas' that are now advertised as the 'most effectual' and *certain cures* for all diseases indiscriminately to which man or animals are subject

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense; not so much as a matter of speculation and pecuniary benefit, as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all healing properties

To *us*, indeed, that we do not expect to realize handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves ... forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the 'bought certificates' of individuals, and shall make use of them only so far as they have been, or hereafter may be, entirely *voluntary and unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties To say less, were injustice to ourselves—to say more would be superfluous.

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenny, and continued its application until I had used six bottles, which entirely cured me, and I have had no return of the disease since I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (5 June May, 846.

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 14 oz of JONATH ... McKENNEY'S SALVE, which effected an entire cure in less than two months SIMEON MARSTON

Gray, May 11, 1846

BANGOR, June 5, 1846

Mr. McKenney —In going into the woods in the autumn of 1845 with the charge of quite a number of men, for the winter lumbering operation, I was induced to take a few boxes of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle and found it equally beneficial. It can truly be called the All-Healing Salve

CAUTION EXTRAORDINARY

A man by the name of *CLAPP* engaged with a young man of the name of *S P Townsend* and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla denominating it *GENUINE* Original etc This Townsend is no doctor and never was; but was formerly a worker on railroads canals, and the like Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms

Principal Office, 102 Nassau st, New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA* Being poor he was compelled to limit its manufacture by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing, *many years ago* that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age, and never changes but for the better because it is prepared on *scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many medicinal properties, and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process* known only to those experienced in its manufacture M reover these *volatile principles* which fly off in vapor or as an exhalation under heat, are the very *essential medical properties* of the root, which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else, they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men women, and children We find it doing wonders in the cure of *CONSUMPTION, DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES, BLOTCHES*, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat, and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus* or *Whites Falling of the Womb Obstructed Suppressed or Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dan e Swooning Epileptic Fits Convulsions* &c

It cleanses the blood excites the liver to healthy action, tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalises the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness, removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS.

while the other DOES *souring fermenting*, and *blowing the bottles* containing it into fragments; the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart, liver complaint diarrhoea, dysentery colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head, Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours and thus spoils all the fluids of the body more or less. What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P. TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla*, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P. Townsend's *article!* and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S. P. Townsend's FERMENTING COMPOUND

We wish it understood because it is the *absolute truth*, that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart and infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine, designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience, its

Transcendent Power to Heal

Dear Sir —I have examined your *Pulmonary Elixir* and am well satisfied that it merits the *full confidence* of the community, as being what it purports to be, a efficient and *safe* remedy for *all* the diseases to which the respiratory organs are subject It may be used with much more *safety* than almost any other article offered for this purpose, inasmuch as the danger of impaired action of those organs, the frequent and ultimate result of most other remedies of the class by reason of *their opiate character*, is, by this, entirely obviated

The physician who should meet with it in families, would find it a *ready assistant*, by which his own labor in the department of medicine would be obviated, and his efforts for relief essentially aided
